

World History II/Geography Website Scavenger Hunt

Dear Parents and Students,

The use of my website is critical for success in my class and because of this critical nature I have designed this assignment to help guide you to the most critical parts. I encourage you to work together to complete this assignment.

Sincerely,

Mrs. Bastian

Website:

I have a class website that will help both parents and students know what is happening in my class. This site will enable parents and students to download various assignments and/or resources as well as the syllabus. You will need to visit my website to complete this assignment. You may access the website by clicking on the teacher pages on the PHS website, clicking on the Social Studies department, and then clicking my name. Or access it directly with the following URL: www.bastiansclass.weebly.com

Directions: Go to the homepage of my website. Once there you are greeted with a welcome message from me. Proceed to answer the following questions based on the contents of my website:

1. What are **three** things you learn about me and/or my family in the welcome message?
2. What are the four tabs at the top of my webpage labeled? Which one will **YOU** use the most?
3. There is a drop-down menu under your class tab? What are each of the parts of that drop-down menu?
4. Which part(s) of the drop-down menu do you think will be most helpful to your success in class this year? **WHY?**
5. Where can you find information such as last-minute changes to the calendar, requests to bring specific materials to class, reminders about important dates, etc.?
6. If you can't remember what the retake process or late process for this class is, where could you find that information on the website?
7. Where would you be able to find copies of the nightly reading assignments?
